 Re: Statutes for Expansion of DNA Collection Law: DP Offenses

Effective July 1, 2017, DNA collection will be required for the following 19 disorderly persons offenses at the time of conviction.

At the time of collection, the offender's identity must be electronically verified via the LiveScan machine using the Criminal Inquiry option, not Criminal Arrest as Criminal Arrest prints were already taken at the time of arrest. Care must be taken to avoid taking Criminal Arrest prints from a subject for the same offense twice.
